A SHY DANCER.

Stories Told by Westerners of the Antics of the Sand Hill Crane.

The sand hill crane is a very bright bird. A Recreation writer says that its very name is synonymous of vigilance and alertness. It feeds on the treeless plains or in the barren wheat stubble, where it can see a long way beyond gunshot, or one of a flock is posted as sentinel, and this bird stands with bill half open, ready to give an alarm. It can be killed by decoying it with pasteboard figures cut to proper size and shape and painted, but mounted birds are better. A pit is dug deep enough to conceal a man, the decoys are put out, and the cranes are shot as they come over. The best region to shoot them is in the Columbia river watershed and south of it in the Pacific coast states.

When one shoots a bird of the size and build of a crane in midair, it collapses like a card house or a tent. But such apparent collapses are sometimes deceptive, as, for instance:

"Before I could reach him he soared off into the air with wheeling flight. Again he hit the ground with fearful violence, but again he got on his feet. Running up, thinking to get him alive for a decoy, I tried to tap him on the head and stun him. He showed fight, and I used my gun as I backed off, and he took to his wings."

The sand hill crane is something of a fighter of men if wounded, and the only safe crane is a dead one. Their bills are long and sharp and are capable of putting out a man's eye.

The sand hill crane has some curious habits that make him of more than passing interest to the student of birds. Out on the prairie parties of them have balls in the spring, to which the select birds seem to be invited. These balls are picturesque affairs from the human standpoint. There are curious dances, which are sort of solitary waltzes or pretty slow jigs. Sometimes the birds leap over one another's backs and flap their wings, giving their peculiar cry. Sometimes rival birds have fierce duels, using their keen bills like lances, battleaxes and swords.

Jay Gould's Orchids.

"Shrewd as Jay Gould was in every branch of finance," a flower merchant said to me the other day, "he had no idea whatever of the value of orchids—his great hobby. The old orchid collection up at Irvington has run down now, but during Gould's lifetime it was one of the finest in the world. The amount of money that had been spent on it, however, was enormous. Careful, conservative buying by an orchid expert would have gathered it together at almost a fraction of the sum actually paid out. Many exquisite and rare varieties were numbered in it, it is true, but an excessive price was paid for the most of them."

"The old financier's ways in this were well known, and people with fine orchids to sell seldom failed to get the sum they asked. Actually, he used to pay as much as \$50 at times for orchids that were hardly worth a quarter of that. In London he had agents constantly on the lookout for rare plants of this species, and he paid them prices that they could have obtained nowhere else."

—New York Herald.

Documentary Evidence.

"If I ever have a daughter she shall be taught to speak every known language, but not to write one," declares John Drew in "The Squire of Damers." The average parent does not half appreciate the necessity of pointing out to his daughter the dangers that may arise from the careless use of her pen. Men are taught in their business life to be careful what they put on paper, and this same caution ought to be put on every girl's education. One prudent New York society woman, who has enjoyed life to the full, is very fond of saying, "My motto has always been, 'Avoid documentary evidence.'"—New York Journal.

Obliging a Lawyer.

A celebrated criminal lawyer, having just defended a noted assassin so brilliantly that the wretch was acquitted in the face of overwhelming evidence, steps up to the judge. "A word in your ear, your lordship."

Judge—Well, what is it?
"I would ask that the prisoner be detained in jail until tomorrow morning. I have to cross a lonely field on my way home, and the rascal happens to know that I have money about me."

Obliging Judge—Oh, certainly.—Strand Magazine.

Vegetable Paper.

The ancient Mexicans made a good article of paper from the pith of the maguey plant. By pressure the fibers were condensed into a tolerably strong fabric, which received ink and color very well. Many specimens of the Mexican paper are to be found in the world's museums, and in the National Library in the City of Mexico there are great numbers of manuscripts and documents composed of this paper.

Proof Positive.

The First Girl—So you think they are engaged?
The Second Girl—I am sure of it. Why, she has stopped speaking of him as Tom West and always refers to him as "mister."—Exchange.

WEAK MEN

CURED AS IF BY MAGIC.
Victims of Lost Manhood should send at once for a book that explains how full manly vigor is easily, quickly and permanently restored. No man suffering from weakness can afford to ignore this timely advice.

ERIE MEDICAL CO., BUFFALO, N. Y.

Healthy, happy babies are generally the offspring of healthy, happy mothers. It would hardly be natural if it were otherwise. The baby's health and happiness depend on the mother's. The mother's condition during gestation particularly exerts an influence on the whole life of the child.

Impure blood, weakness and nervousness in the mother are pretty sure to repeat themselves in the child.

If a woman is not careful at any other time, she certainly should be during the period preliminary to parturition. It is a time when greatest care is necessary, and Nature will be the better for a little help. Even strong, well women will find themselves feeling better, their time of labor shortened and their pains lessened if they will take Dr. Pierce's Favorite Prescription. To those whom troubles peculiarly feminine have rendered in any degree weak, it will prove a veritable blessing. It is a good general tonic for the whole system, and at any time will promote the proper and regular action of all the organs. It is a medicine for women only and for all complaints confined to their sex is of inestimable value.

Dr. Pierce has written a 1000 page book profusely illustrated called "The People's Medical Adviser," which will be sent on receipt of twenty-one cents to pay postage and wrapping only. It is a complete family doctor book.

OREGON ELECTION.

An election was held in Oregon yesterday for two members of Congress, a Judge of the Supreme Court, members of the Legislature and local officers. Two years ago a vote for Congressman in the First District stood 22,264 for Hermann, Republican, to 12,629 for Miller, Populist, and 10,796 for Weatherford, Democrat. In the Second Congressional District W. R. Ellis, Republican, received 18,875 votes, Waldrop, Populist, 10,749 votes, and Haley, Democrat, 9,013 votes. Lord, Republican, had 41,024 votes, Pierce, Populist, 26,083 votes, and Galloway, Democrat, 17,438 votes for Governor.

This indicates a walk-over for the Republican candidates for Congress unless the situation has changed since 1894. Hermann, who made a faithful Representative in Congress, was defeated in the nominating convention, the alleged reason being that he was for free coinage, and the Republican party in Oregon declared for gold. Ellis was renominated in the Second District, but as he, also, was favorable to silver, the gold element of the party nominated a "sound money" man for Congress and had his name put on the official ballot.

The Legislature will elect a United States Senator to succeed J. H. Mitchell, whose term will expire next March. Mitchell opposed the repeal of the Sherman act in the special session of Congress, but he has not taken the advanced position of Teller, Dabois, Mantle and Cannon on the question.

Ex-Governor Penneyer is the Populist candidate for Mayor of Portland, but as the city gave a clear majority of about 2,500 to the Republicans two years ago, it is probable that the ex-Governor will be defeated unless there is a radical change.

As the election in Oregon occurs on the eve of the Republican National Convention and the majority of that convention favors the single gold standard the gold men could not afford to lose Oregon, and it is almost certain that they have carried the State. Money is said to have been lavishly expended in the interest of the party, as defeat in Oregon, where the party was pronounced for gold, would have a bad effect at St. Louis. The Populists are strong in Eastern Oregon, but unless they received the unanimous support of the Democrats or drew heavily from the Republicans they could not expect to elect a Congressman.

In the Legislature of 1895 the Republicans had 72 votes on joint ballot, the Populists 9 and the Democrats 8. This year that majority may be reduced, but it is hardly possible that it will be overcome. The great struggle was in Multnomah county, in which Portland is situated, though it has been a Republican stronghold for years, as Penneyer was nominated for Mayor by the Populists and Democrats.

THE PRICE OF GOLD.

By the Peel Act of July 19, 1844, the price of gold is fixed by an English law which compels the Bank of England to pay 32, 17s, 9d, for every ounce of standard gold presented at its counter. This is equivalent to \$18.92, the staple price of gold of standard fineness, less carriage and insurance, the world over.

Chambers' Encyclopedia, volume 1, page 667, and the Encyclopedia Britannica, American edition, 1895, page 455, verify the statement that by the provisions of its charter the Bank of England is required to purchase all the gold of standard fineness brought to its counter at \$18.92 per troy ounce of 480 grains. If the English law fixed a price on silver equivalent to its coinage value, as it does on gold, the market value of the metal would be the same as its coinage value, less the charges for mintage.

The United States Mint coins gold for depositors into standard money of the United States, charging a nominal price for mintage. If it would coin silver on the same terms the metal would have a fixed price, as gold has, as no one would sell silver bullion at less than its coinage value. This would not increase the volume of silver coin over one dollar per capita per annum, but by giving employment to hundreds of thousands, who are now seeking work in other pursuits, it would relieve the labor market and as the prices of wheat, cotton and other products of the farm advance or decline with the price of silver it would benefit every industry in the United States. This country is the greatest silver producer in the world and England produces no silver. England is therefore interested in keeping down the market price of the metal as it requires a good deal of silver for subsidiary coins and the less it has to pay for the bullion the greater the profit in coining it. England buys silver in the United States at 67 cents an ounce and coins it at the ratio of 15 1/2 grains to 1 grain of gold, making a profit of 50 per cent on every ounce. The United States not only sanctions the English method of depreciating the market value of an American product, which England must have, but declares it would be anachronistic to pass an act opening the mints to silver as such an act would compel England to pay \$1.29 an ounce for silver bullion which it now buys in New York at 67 cents per

If the United States Government would do for silver, of which this country is the greatest producer in the world, what the British Government is doing for gold, the United States would be the most prosperous nation on the face of the earth.

KENTUCKY FOR FREE SILVER.

The free silver men carried ten out of the eleven Congressional Districts in Kentucky. The exception is the Louisville district where the "sound money" men were in the ascendancy and many delegates from that district will probably be excluded from the convention as their seats are contested by silver men.

In many counties resolutions indorsing Carlisle for the Presidency were voted down by a large majority and Blackburn declared to be the choice for United States Senator.

The convention to elect delegates to Chicago will be held at Lexington tomorrow. There is now no doubt of the attitude of the convention on the money question. The platform will declare for 16 to 1, and the delegates will probably be instructed to vote for a free silver man for Presidential candidate.

Secretary Carlisle, in consequence of his change of front on the financial question, has lost caste in the State which elected him to Congress a half-dozen times and once to the United States Senate, and he will retire at the expiration of Cleveland's Administration, repudiated by the people whose interests he betrayed for Wall street favors.

Oregon Election.

Special to the JOURNAL. PORTLAND, Or., June 1.—Republicans have the Legislature by a large majority. The Republicans have twelve holdovers, the Populists two and the Democrats one. Ex-Governor Penneyer has been elected Mayor of Portland. Returns are coming in slow.

The Coronation Victims.

Moscow, June 1.—The burial of the victims of Saturday's disaster went on all night and is still progressing amid scenes of grief. Only mourners are admitted to the cemetery.

TELEGRAPHIC NOTES.

The village of Kreinholz, Switzerland, has been partially destroyed by a land slide.

Dunham, the murderer, is still at large. The officers do not believe in the suicide theory.

The vote on the President's veto of the River and Harbor bill will probably be taken in the House to-day.

The strike in the Northern Colorado coal mines is off. The men returned to work without gaining a point.

Conservative estimates of the loss of property at St. Louis resulting from the cyclone place the amount at about \$5,000,000.

A flood Saturday night at Seneca, Missouri, caused a loss of seventeen lives and the destruction of \$75,000 worth of property.

The Senate expects to vote on Butler's bill to prohibit the issue of bonds to-day. Hill reserves the right to move to postpone the vote.

The House has unseated Stokes of the Second South Carolina District and declared that there was no valid election in the district.

John Hays Hammond has been pardoned by President Kruger of the South African Republic. Mrs. Hammond is not expected to live.

Late reports from Moscow place the number of deaths resulting from the trampling at the great feast in honor of the Czar's coronation at 2,500.

Five miners at the Buckeye Colliery, Shamokin, Pennsylvania, were horribly burned by an explosion of gas. Two of the men were fatally injured.

In the House of Representatives yesterday Keim, Populist, raised a point of no quorum, and it took Mr. Reed some time to count a quorum, as the members were dilatory.

A case of cholera was discovered at the Moslem University at Cairo, Egypt. The students opposed the entrance of the sanitary officers to the University and stoned the police. Two hundred of the riotous students were arrested.

A mob broke into the court-room at Columbus, Georgia, took Jesse Slayton, a negro, charged with assaulting Mrs. Howard Brayne, away from the officers and lynched him. The mob then took Will Myers, colored, charged with the same offense, and hanged him.

Two vessels were launched at Newport News shipyard. In sliding down the ways the blocks slipped from under one side of one of the vessels, turning her on her side. She went into the water and filling rapidly sank. There were thirty men aboard, all of whom but one were saved.

Late summaries of the known dead and wounded at St. Louis and East St. Louis are: Known dead in St. Louis, 187; unknown dead, 11; fatally injured, 20; missing, 60. Known dead in East St. Louis, 145; unknown dead, 5; fatally injured, 3; total, 427. Injured in St. Louis, estimated, 800; injured in East St. Louis, 300; total, 1,100.

John P. Harms, the tramp who found a part of the treasure taken from the express train at the time of the train robbery in Yolo county, California, was sentenced yesterday at Sacramento to three years in the Folsom prison. Harms lived high for awhile on the stolen money. He refused to tell the officers where he found the money.

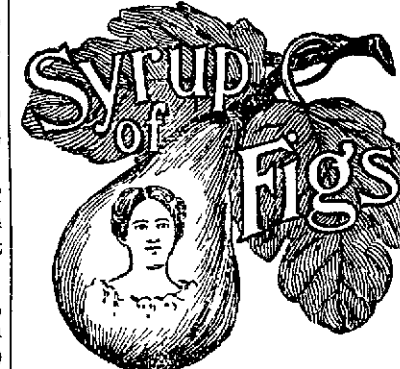

The centennial anniversary of the admission of Tennessee was celebrated

thousands of strangers in the city, but a drenching rain dampened the ardor of the people. The parade was postponed until noon in consequence of the rain and then it took place according to program, though the rain did not cease.

In a fight over cattle at Chickasaw, Indian Territory, Sterling Elder was shot and killed by John Ellis. While the men were quarreling Mrs. Isaacs, a sister of Ellis, drew a revolver and commenced firing at Elder. He ran to the house and as he reached the door his wife wrenched the revolver from Mrs. Isaacs. A general fight ensued, and Ellis shot Elder in the back killing him instantly.

The space which this mass of printed material occupies has to be reckoned in miles. The shelves of the reading-room and iron galleries constructed around it, which are known as the new library, all told, extend to more than eight and twenty miles; those in the rest of the department to 11 miles. It may be noticed that this total of 99 miles is nearly the same as that of the shelving of the French National library, according to recent calculations. The prospect of increase of this mileage may be viewed with comparative equanimity in connection with the storage of the ordinary octavo of literature, but when one contemplates the rapid growth of newspapers the limits of the available space within the present buildings are almost within sight. —Westminster Gazette.

Liberty, Equality and Fraternity. Liberty is of no value in itself, but is valuable only as a means to equality, and equality that did not eventuate in fraternity would perish. Equality will enlarge itself to the bonds of humanity as fast as people learn that in likeness there is the only rest and comfort and pleasure that men can know, and fraternity will come as a result of the same conviction. —W. D. Howells in Century.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

Getting Thin

is often equivalent to getting ill. If loss of flesh can be arrested and disease baffled the "weak spots" in the system are eradicated.

Scott's Emulsion

is an absolute corrective of "weak spots." It is a builder of worn out failing tissue—nature's food that stops waste and creates healthy flesh.

WINNEMUCCA NOTES.

Items of All Sorts from Humboldt County

WINNEMUCCA, Nev., May 31, 1906.

EDITOR JOURNAL.—The graphic account in yesterday's JOURNAL of the fearful storm which proved so disastrous to Reno and vicinity, was eagerly read and put a quietus on some of Winnemucca's citizens who thought they were shabbily treated by the elements. Beyond forming a few miniature lakes on the streets here, the heavy thunder and rainstorm, preceded by quite a gale of wind, did no damage whatever. On the contrary, it proved a blessing to farmers and stockmen in this section of the country.

Memorial Day was duly observed under the auspices of McDermitt Post, G. A. R., by appropriate exercises at Armory Hall and the subsequent march to the cemetery, where the graves were decorated. The main features of the lengthy program consisted of a very pathetic oration by Geo. S. Nixon, the recitation by Miss Elva Brackett of "Banner in the Sky," a poem in which the young lady exhibited her splendid elocutionary powers, and the rendition of a pleasing vocal duet by Mrs. Oliver and Mrs. A. E. Lottrop.

The local band also came in for a creditable share. Lee Windle, the leader, has been drilling a band of eleven boys for the past two months. The youngsters are already doing so well that within a few weeks more a consolidation with the old members is contemplated, which will give Winnemucca a fine band, numbering twenty in all.

There-election of the old school board here assures the retention of the present corps of teachers. E. E. Winfrey, a Reno boy, has served Winnemucca in the capacity of school principal for fully seven years, which certainly is a brilliant testimony of his efficiency. Miss Alice Ede, another Washoe county production, has taught the grammar grade for two years. The two other teachers, Miss Laura Miller of Winnemucca and Miss Rose Gardner of Elko, have satisfactorily served a like term. About 200 pupils are attending school. With the graduation of four boys and two girls on the 19th proximo, the present term will come to an end.

The preliminary examination of the three tramps for the shooting of Brakeman Knowles will take place on Tuesday. With two of them the prospect for a long term of imprisonment looks bright. Yesterday they were identified as the robbers of the Italian section hands' cabin, an account of which appeared in the *Silver State* of the 27th instant. On that occasion they made their escape good by shooting at their pursuers. The clothes stolen from the Italians were found upon the prisoners. At present tramps here are as thick as grasshoppers.

Extensive preparations are in progress for a fitting reception to be tendered the Masons and Knights of Pythias' Grand Lodges, which meet here during the week beginning with the 8th of June.

G. A. Krenkel, a prominent Mason, is probably the most enthusiastic man as regards the impending occasion. S. H. Kitts, well known in Reno and Verdi, is at present Winnemucca's railroad agent. OSCAR HEDERBRANDT.

THE STORM NORTH.

Reported to Have Been Very Severe in Surprise Valley.

J. M. Fulton of the N-C-O says the trainmen who returned from Amodeo last evening learned from the stage driver that last Friday's storm was very severe in Surprise Valley, California. The bridges were all washed out and there is no communication with Fort Bidwell. The flouring mill at Lake City, Surprise Valley, owned by W. T. Cressler, was washed away. It contained about 150,000 pounds of wheat and a large quantity of flour and feed.

The storm was much more severe east of the Sierra Nevada than in the mountains. In Sierra Valley, which is west of Beckwith Pass, the highest point in the Sierra Nevada, the storm did no injury and the damage if any was very light. East of the mountains it was very severe, though Susanville escaped and there was no damage along the N-C-O road.

THOROUGHBREED HEREFORDS!

The Finest Herd of the Cattle on the Coast.

John Sparks, the cattle king, purchased during his visit east a half-dozen head of thoroughbred Hereford heifers and now has the finest herd of these cattle on the coast. The Herefords are conceded by cattlemen to be superior for beef purposes to any and all other breeds in the country. They are well adapted to this climate and are highly spoken of by cattle men.

A Boy's Arm Broken.

Chester Brown, the 11-year-old son of H. P. Brown, had his right arm dislocated at the elbow and one of the bones broken while playing "Follow the leader" with several other boys. It appears that the leader in the play went over a hitching post and the Brown boy in following him had his arm broken. Dr. Lewis was called to attend the injured boy, and he set the joint and reduced the fracture. It is the opinion of the surgeon that the elbow joint will not be stiff.

An Arm Broken.

Geo. Bechtel fell from a tree near the English Mill Sunday morning and broke his right arm. He was immediately brought home and Drs. Hogan and P. T. Phillips were called and reduced the fracture.

Grand Chancellor Hummel announces the institution of Abraham Lincoln Lodge, No. 21, Knights of Pythias, at DeLamar on the 19th ult. The new lodge has very bright prospects.

Chew a few dandelion leaves before retiring, if troubled with insomnia. Swallow the juice and sleep like a baby. So a paragraph says. They can be gathered and dried for winter use, and a tea made of them is quite as efficient as the juice of the green leaf.

The Genoa Courier says I. Cohn intends to put on three 12-horse teams to haul lumber from the Diamond saw-mill to Virginia to fill his contract with the Hale & Norcross company, and by the first of July he expects to be prepared to keep six 12-horse teams running.

Benzine, which had been sprinkled upon the carpets and furniture in a three-story dwelling in Philadelphia exploded, wrecking the house and setting it on fire, and so badly burning Miss Rosa Griggs, aged 21 years, that she died, and badly burning Mrs. S. R. Bentley and her daughter, Miss Sallie Bentley, aged 21 years.

The *Sentinel* says halibutones the size of pullets' eggs fell in Eureka last Friday, breaking window panes and frightening people generally who have never lived in the home of the cyclone in the Eastern States. The roar of the "twister" could be audibly heard in the clouds above us. The sight was truly magnificent in its fearful appearance. Fortunately Eureka is surrounded by high mountains, which broke the force of the wind.

CYCLE TOPICS.

The Yellow Fellow Relay From San Francisco to New York.

Some time in July the *Journal-Examiner* yellow fellow relay will start from San Francisco to New York. The first rider will be a member of the Bay City Wheelmen of San Francisco and he will bear a message from the commanding officer of the Pacific coast to General Miles at the *Journal* office in New York.

It will be a race against the sun. The riders will travel by way of Truckee, Reno and Wadsworth and along the Central Pacific railroad to Ogden. It is thought the relays will be about fifty miles where the roads are good and considerably less in the mountains. Every yard of the route will be charted from the Presidio, San Francisco, to Governor's Island, New York. There will be no possibility of a break down as substitute riders will be appointed so that in the event of accident or sickness the record will not suffer. Local wheelmen all along the route will honor the one distinguished as the transcontinental messenger. It is thought the distance from San Francisco to New York can be covered in less than twenty days.

A Successful Operation.

The Drs. Gibson performed a very successful operation on David Lachman Sunday. Mr. Lachman had been suffering intense agony for over forty-eight hours and his life was almost despaired of. The physicians were called and it was discovered at once that the case necessitated prompt and decisive measures. The operation was performed and Mr. Lachman relieved. He is now resting comfortably and will probably be around in a few days.

District Court.

In the District Court yesterday, Judge Cheney presiding, the following business was transacted:

Jordan Valley Stock Company vs. H. J. Pratt was, on motion of plaintiff, dismissed.

The case of William Hoffman, Jr., vs. the estate of William Hoffman, R. S. Osburn, administrator, was amicably settled by the payment of \$700 by the estate, and the case dismissed.

Officers Elected.

At a regular meeting of Reno Encampment No. 5, I. O. O. F., last week the following officers were elected to serve for the ensuing term: W. A. Fogg, C. P.; E. C. Leadbetter, H. P.; Wm. Eickbush, S. W.; F. C. Uplake, Scribe; Wm. Frazier, J. W.; Becker, Treasurer; T. J. Brown, E. C. Leadbetter, S. Jacobs, Secy., R. V. Borden.

The McKenzie Concert Company.

This splendid company will appear at the Opera House this evening and a musical treat is promised. Miss McKenzie as a singer receives the most complimentary press notices and it is said she is deserving of them all.

Miss Bertha O'Reilly, the pianist, is a graduate of the New England Conservatory of Music and an artist. Her technique and finish is far above what one generally meets with in pianists and she always pleases her audiences.

Miss Elise Fellows as a violinist is superb and she demonstrates not only the power of this king of musical instruments, but shows what a woman can accomplish with it. She never fails to receive two or three encores at every appearance. Secure your seats for this evening's entertainment at Lake's book store.

County Commissioners.

The Board of Commissioners met yesterday in regular monthly session, full board present. S. H. Wheeler appeared for S. O. Wells and complained that a county road on Allen Creek had been closed. The Board will look into the matter.

The Winnemucca School District was re-established subject to the old boundaries.

The County School Superintendent was requested to make inquiries regarding the cost of a map of the several school districts in the county and report at the next meeting.

Consideration of the usual monthly bills occupied the rest of the session.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alternative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, indigestion, constipation, dizziness, yield to Electric Bitters. Fifty cents and \$1 per bottle at S. J. Hodgkinson's drug store.

Reno Dramatic Club.

The Reno Dramatic Club will appear at the Opera House next Friday evening. Standman's grand military play, "The Midnight Charge," with new scenery and fine stage effects, will be presented. The Elsie Gies Club, representing the "Punkin Club," will introduce special songs and a number of new and interesting features. Chas. P. Ferrell will shoe a horse on the stage during one of the acts. In brief the performance will be excellent. Secure your seats early at Lake's, for there will be a rush.

THE MODERN BEAUTY.

Thrives on good food and sunshine, with plenty of exercises in the open air. Her form glows with health and her face blooms with its beauty. If her system needs the cleansing action of a laxative remedy, she uses the gentle and pleasant Syrup of Figs. Made by the California Fig Syrup Company.

Attempted Burglary.

At about 2:30 o'clock this morning as Officer Nash was making his rounds he noticed one of the back windows of Wieland's Brewery open. Upon investigation he discovered a man hiding behind one of the partitions.

Upon being ordered to surrender he immediately complied and was lodged in jail. He had just gained an entrance, consequently had not secured any booty. Mr. Nash had been informed early in the evening to watch John Sunderland's store as it was believed that one of his tailors intended to try and rob it. When taken to jail the man proved to be the one that Mr. Sunderland expected would try to enter his place.

Marvelous Results.

From a letter written by Rev. J. Gundersen, of Diamonddale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at S. J. Hodgkinson's drug store. Regular size, 50 cts. and \$1.

Coronado Coronado!
